  - Bariatric Surgery
  - Refractive Surgery

**NextTech**

# Electronic Medical Records

- Eliminate paper files
- E-prescriptions and Lab Integration
- Integrated with quotes and billing for maximum efficiency
- All EMR fields are stored as data for ease and immediacy of querying reports for legal, peer, or insurance needs
- Document and analyze clinical services, outcomes, and prescription histories within EMR
- Lock and audit all history within your EMR
- Easily customize all templates
- Dictate directly into EMR using third party dictation software
- Draw directly on anatomical diagrams and patient photos
- Sign consents and chart notes on a touch screen
- Attach audio files, documents, dictations, and images directly within your EMR
- E&M checklist to assist with coding

## Benefits

- ✓ Eliminates the overhead associated with paper charts such as supplies and storage space
- ✓ Improve patient care with accurate charting
- ✓ Full integration with our practice management allows for seamless creation of bills and greater efficiency
- ✓ Eliminate transcription costs
- ✓ Immediate access to patient records

*"We use the vast array of collected data for financial benchmarking, marketing and clinical studies. The EMR documents all aspects of our Dermatology practice from psoriasis to injectables to cosmetic laser services. Customer service is excellent for the installation and training and educated staff have been available and receptive to questions and additional needs. We actually see our suggestions implemented. We are very happy with this product and NexTech."*

**Emil A. Tanghetti, MD, Sacramento, CA**

Ambulatory EHR®

# NexTech

# Website Patient Portal Integration

- Integrates patient demographics, medical history, and procedure interests into EMR and PM sides.
- HIPPA compliant and work with web designer to ensure seamless integration.
- Patients and prospects can request information on procedures; follow up is set automatically.

*"In my 30 years in the medical field utilizing various software programs, I can honestly say that NexTech far surpasses any other system I have used. I cannot say enough about the support staff, from their professionalism to their knowledge, they are superb. This is an outstanding company and software system."*

Denise Chase, OM for Waldman Plastic Surgery and Dermatology, Nashua, NH

The screenshot displays the Pawtucket Surgery Center's patient portal registration form. The header features the center's logo and contact information: (800) 490-0821 and support@nextech.com. The form is divided into two main sections. The top section, titled 'Please fill in any blank or incorrect information', contains fields for Prefix, First Name (Rebecca), Middle Name, Last Name (Quinter), Address 1 (324 Sand Street), Address 2, City, State, and Zip. The bottom section, titled 'Please tell us a little about yourself:', includes fields for First Name (Rebecca), Last Name (Quinter), Home Phone ((804) 555-6402), Work Phone, and Email Address (mqinter@yahoo.com). Below these fields is a section titled 'Please select the procedures you might be interested in:', which lists various medical procedures with checkboxes. The 'Breast Augmentation' checkbox is checked. At the bottom of the form are 'Submit' and 'Cancel' buttons.

# Graphical and Multi-Resource Scheduler

- Delivers multi-provider, multi-location and multi-resource capability.
- View by day, week, month or resource; filter by type or purpose.
- Control times for appointment types; set limits and warnings.
- Color-code appointments by category and status .
- Identify patients with who habitually cancel or no show.
- Hide patient names from public view for HIPAA compliance.
- Move an appointment by drag and drop, or copy, cut and paste
- Track where patients are in the office and how long they've been waiting.
- Precision templating lets employees fill in the specific slots, resulting in less scheduling errors

The screenshot displays the NexTech Practice Scheduler software interface. The main window shows a calendar view for Monday, August 04, 2008. The calendar is color-coded by appointment type and status. A detailed view of a patient's appointment history is shown on the right side of the screen, listing various procedures and dates.

**Appointment History (Right Panel):**

- Volume Botox - H (201) 488-5319
- Burns, Katie (p) Insurance Office Procedure Birth Defect Reconstruction
- Breast Implant Surgery
- Quinter, Rebecca K (p) Insurance Surgery Skin Lesion/Tumor H (804) 555-6402 W Private

- Quirk, Helen C (p) Cosmetic Consult New Acne Surgery

"We are the first office in Spain to use NexTech and the company has been very helpful in adapting the program to European standards and currency. The Multi-Resource scheduler has helped us to be more organized. We use Letter Writing for the extensive mailings for "Cirujanos PlastiKos Mundi," our charitable foundation."

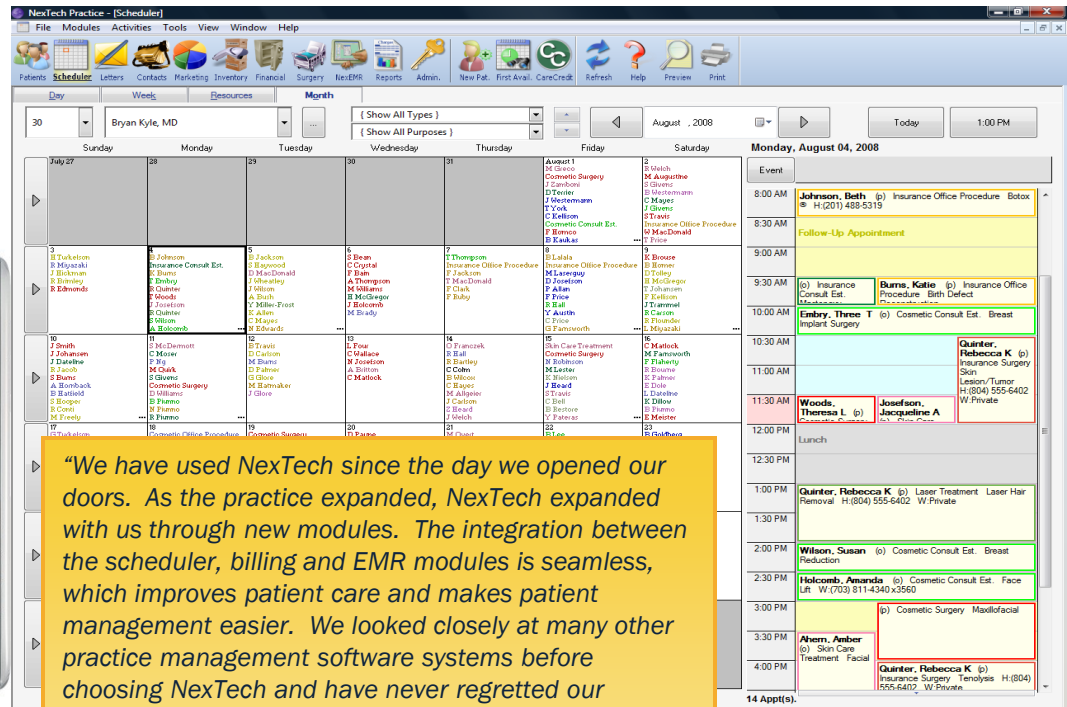

Fco. Javier Beut, MD, Palma De Mallorca, Spain

**NexTech**

# Scheduler Link to Smart Phones

- Two-way interface between NexTech Scheduler and any Outlook compatible smart phone, such as Palm Treo™, Pocket PC™, Blackberry or Apple iPhone.
- Restrict the transfer of personal information from your smart phone to the practice schedule and contact database.
- Use your smart phone to look up appointments or add/ edit a referring physician or other contacts

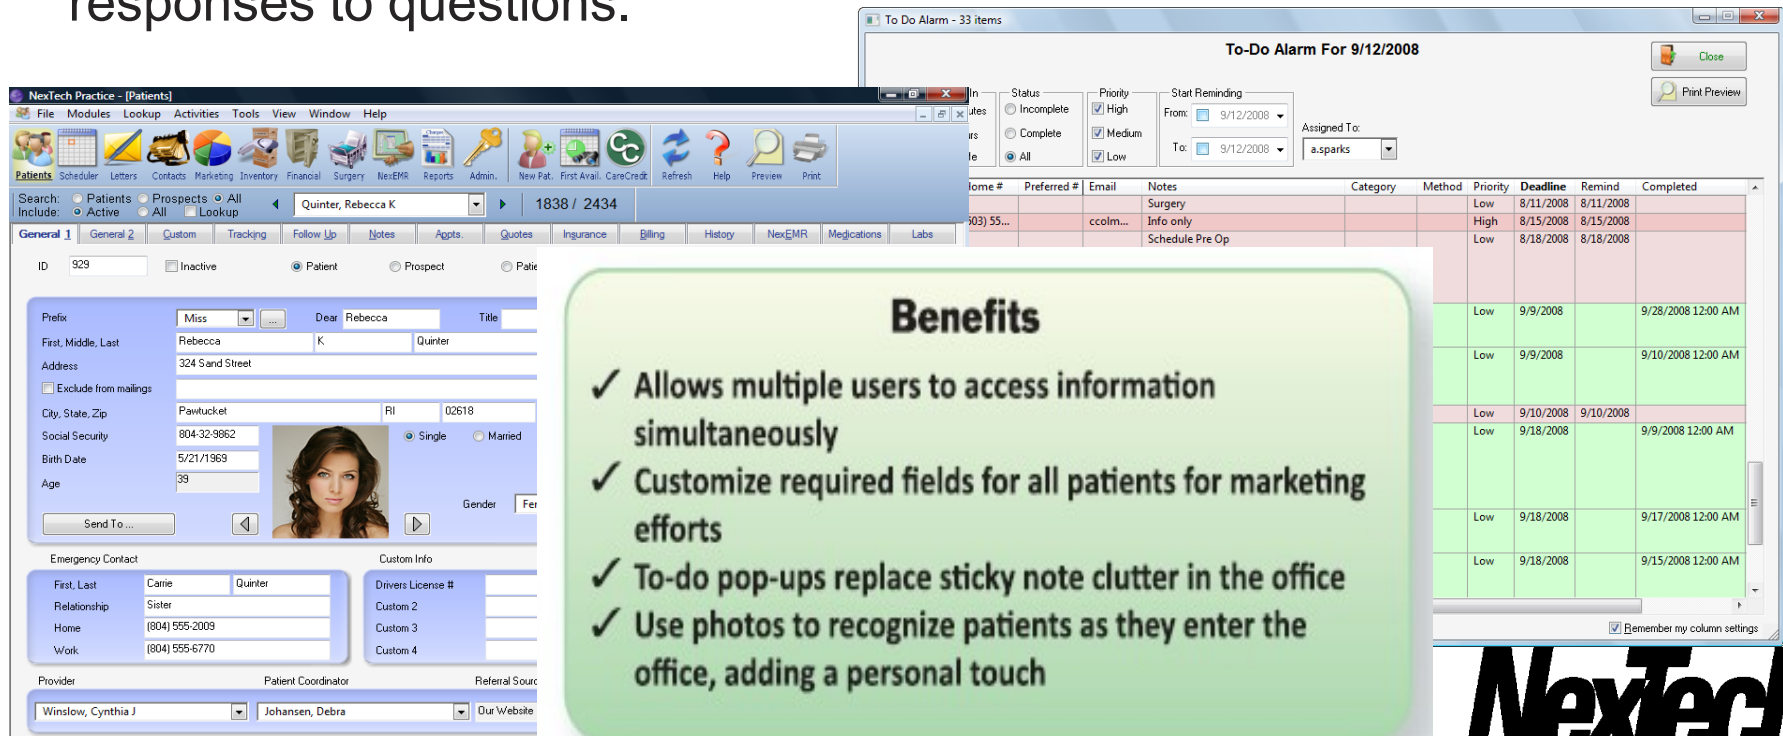

Rachel Gordon Lichten, Practice Manager, Jason Lichten, MD, Lancaster, OH

**NexTech**

# Contact Management Module

- Ensures that staff will ask prospects and patients right questions and correct answers.
- Search the patient database using common data such as area code, zip code, status and referral source .
- Record transcriptions and patient notes in multiple categories.
- Track patients and prospects and ensure timely follow up.
- Establish a procedure or service sales script for consistent staff responses to questions.

The screenshot displays the NextTech Practice software interface. The main window shows patient information for Rebecca K. Quinter, including contact details, social security number, and a photo. A 'To-Do Alarm' window is open, showing a list of tasks for 9/12/2008. The tasks include 'Surgery', 'Info only', and 'Schedule Pre Op'. The 'To-Do Alarm' window also shows a table of tasks with columns for Priority, Deadline, Remind, and Completed.

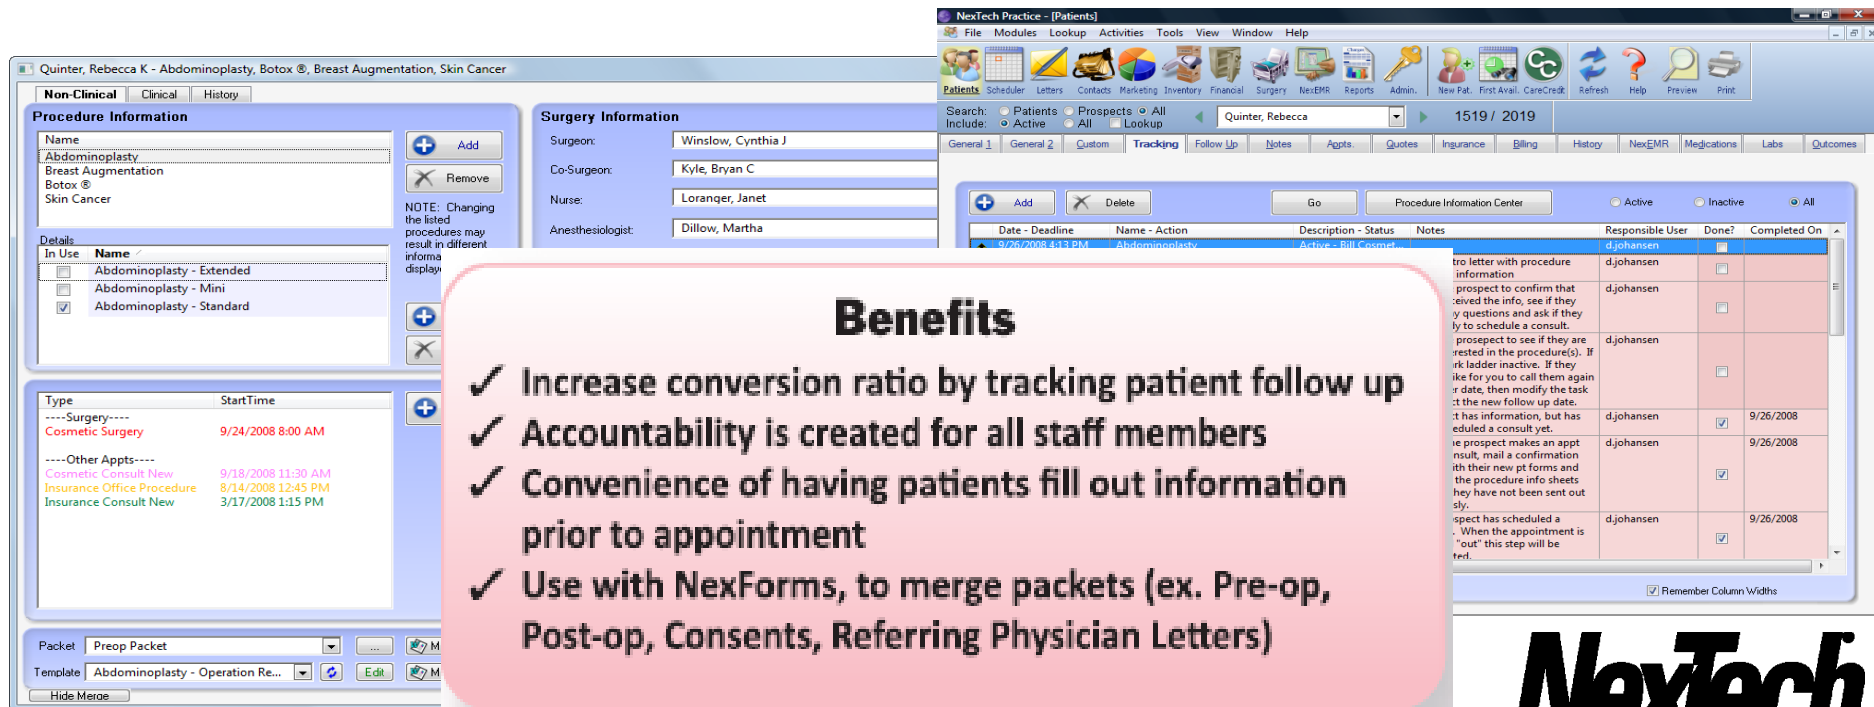

**Benefits**

- ✓ Allows multiple users to access information simultaneously
- ✓ Customize required fields for all patients for marketing efforts
- ✓ To-do pop-ups replace sticky note clutter in the office
- ✓ Use photos to recognize patients as they enter the office, adding a personal touch

**NextTech**

# Tracking Module

- Integrates all patient and prospect interests, scheduling, reminders, consents, quotes, billing and EMR into a step-by-step process for every procedure.
- Follow up to turn prospects into patients
- Track a prospect from the very first phone call
- Track and complete tasks for multiple patients and prospects simultaneously.
- Produce automatic to-do alarms that remind your staff of tasks that needs to be completed for each patient.

**Benefits**

- ✓ Increase conversion ratio by tracking patient follow up
- ✓ Accountability is created for all staff members
- ✓ Convenience of having patients fill out information prior to appointment
- ✓ Use with NexForms, to merge packets (ex. Pre-op, Post-op, Consents, Referring Physician Letters)

Date - Deadline	Name - Action	Description - Status	Notes	Responsible User	Done?	Completed On

**NexTech**

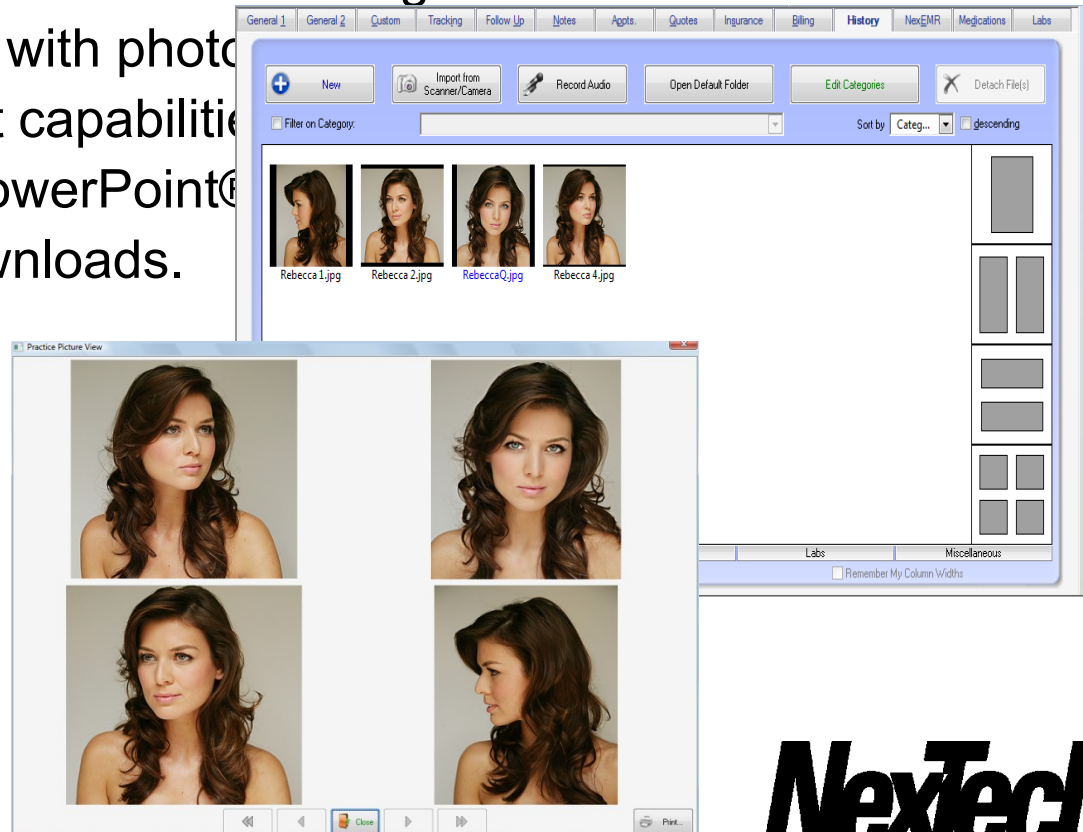

# Photo Management Module

- Simplifies the process of taking, saving, editing, and retrieving patient photos.
- Capture images directly from digital cameras automatically link patient demographics, procedure, and appointment information.
- Quick editing tools and advanced search engine.
- Ghost over-lay capabilities with photos.
- Multi-image viewing & print capabilities.
- Auto-export to Microsoft PowerPoint®.
- One-touch photograph downloads.
- X-ray & video archiving.

*"Hands down, best investment of my medical career. Over the years we've cut costs and increased efficiency by implementing all aspects of NexTech."*

**Philip Miller, MD, New York, NY**

# NexTech

# Quotes

- Generate personalized price quotes, print patient copies, and convert to bills eliminating redundant entry while maintaining history.
- Easily produce a detailed multiple procedure quote
- Show estimated facility and anesthesia fees (even if paid to others)
- Automatically calculate discounts for multiple procedures
- Customize the look of quotes with your logo or other graphics
- Create packages of repeat services and track remaining treatments
- Send patient demographics electronically to CareCredent for quick financing approval
- Credit card processing

## Benefits

- ✓ Eliminate duplicates by converting quotes into bills
- ✓ Generate more repeat business by creating packages of repeat services and tracking remaining treatments
- ✓ Save time with a quick calculation of multi-procedure discounts

# Cosmetic Surgery and Product Sales

- Separate pre-payments from other transactions
- One-step billing assures accuracy and reduces staff time by creating an automatic bill and applying the quote's pre-payments to the bill.
- Quickly enter charges for office services and products
- Use barcode scanning at check out for product sales and additional services.

The screenshot displays the NexTech software interface, which is used for managing cosmetic surgery quotes and billing. The interface is divided into several sections:

- Quote Information:** This section at the top contains fields for Quote ID (6154), Patient ID (929), Coordinator (Johansen, Debra A), Patient Name (Quinter, Rebecca K), and Description (Botox - Extra). It also includes a Quote Date (8/ 6/2008) and buttons for Delete Quote, Merge To Word, Edit, Edit Text, Print Prev., Cancel, and OK.
- Quote:** Below the quote information, there is a section for Quote A, which includes a checkbox for "Quote Expires" and a dropdown for "Surgery".
- Billing Information:** This section contains fields for Bill Number, Patient ID (929), Coordinator (Johansen, Debra A), Patient Name (Quinter, Rebecca K), and Description (Botox - Extra). It also includes a Bill Date (9/ 8/2008) and buttons for Billing, Insurance, and Previous Quote.
- Services Table:** A table listing services provided by Winslow, Cynthia J MD. The table has columns for Provider, Code, S..., Description, Qty, and Price. The services listed are Botox Injection Axillary, Botox Injection Neck, and Botox Injection Axillary, each with a quantity of 1 and a price of \$41.00.
- Discounts:** There are buttons for "Apply Discount to Each Quote Item" and "Apply Discount to Each Charge".
- Place of Service:** A dropdown menu for "Place of Service" is set to "Central Outpatient Surgery".
- Total:** At the bottom right, the total amount is displayed as \$2,100.00.

*I have been using NexTech for over eight years. We have worked with NexTech to make it very user friendly. NexWeb works very well to allow patient registration and demographic data to be collected prior to patient consultation. Using wireless tablets, we utilize EMR in all aspects of our practice including patient registration, consultation, postoperative follow-up, intraoperative surgical recordkeeping, recovery room, postoperative recordkeeping, and in our medical spa. NexTech has incorporated informed consents, diagrams, and templates which allowed us to achieve a truly paper free plastic surgery practice. I am a true believer in this system.*

**Joseph P. Hunstad M.D., FACS Charlotte, NC**

**NexTech**

# Insurance Billing

- Edit on-screen HCFA CMS-1500 with NPI and UB-04 forms, printing either individually or in a paper or electronic batch
- OHIP Billing compatible
- Apply payments by using drag and drop to line item charges
- Apply a batch payment from insurance companies to multiple patients or use E-Remittance through a clearinghouse or OHIP
- Pre-validate insurance claims to prevent rejections
- Track co-pays and insurance referrals
- Verify insurance benefits in just minutes with E-Eligibility
- Manage and resubmit unpaid claims
- Set up unlimited fee schedules for different combinations of providers, insurance companies, and locations
- Print patient statements or send E-Statements by billing cycle, as well as by provider and location

## Benefits

- ✓ Faster, more accurate claim processing
- ✓ Decrease your accounts receivable with electronic billing
- ✓ Increase your productivity by applying payments using E-Remittance
- ✓ Decrease errors and under-coding with complete billing integration with NexEMR

**NexTech**

# Financial & Management Reports

- Analyze financial, scheduling and marketing activity for one or all providers and locations.
- Export reports to MS Excel or Word for specialized analysis.
- Audit patient encounters to ensure proper billing and collections.
- Compare what insurance companies are paying for specific services.
- Track staff financial posting through batch and audit trail reports.
- Reports integrate with Letter Writing groups for powerful analysis

*"Recently I completed my residency. The single best decision I made was to buy NexTech. I considered less expensive software packages, but after extensive research including speaking to established practices, I was convinced. NexTech worked with my limited budget to get the package I needed from the start. Since then NexTech supported me every step of the way, from hardware purchasing, EMR implementation, on-site training, and program customization. The best part of having NexTech is the technical support. A live person is only a phone call away, ready and capable to handle any situation."*

**ASPS Consent - Abdominoplasty**

**INSTRUCTIONS**

This is an informed-consent document that has been prepared to help inform you about  
abdominoplasty surgery, its risks, and alternative treatments.

It is important that you read this information carefully and completely. Please initial each page,  
indicating that you have read the page and sign the consent for surgery as proposed by your plastic  
surgeon.

**GENERAL INFORMATION**

Abdominoplasty is a surgical procedure to remove excess skin and fatty tissue from the middle and  
lower abdomen and to tighten muscles of the abdominal wall. Abdominoplasty is not a surgical  
treatment for being overweight. Obese individuals who intend to lose weight should postpone all  
forms of body contouring surgery until they have reached a stable weight.

There are a variety of different techniques used by plastic surgeons for abdominoplasty.  
Abdominoplasty can be combined with other forms of body-contouring surgery, including suction-  
assisted lipectomy, or performed at the same time with other elective surgeries.

**ALTERNATIVE TREATMENTS**

Alternative forms of management consist of not treating the areas of loose skin and fatty deposits.  
Liposuction may be a surgical alternative to abdominoplasty if there is good skin tone and localized  
abdominal fatty deposits in an individual of normal weight. Diet and exercise programs may be of  
benefit in the overall reduction of excess body fat and contour improvement. Risks and potential  
complications are associated with alternative surgical forms of treatment.

**RISKS OF ABDOMINOPLASTY SURGERY**

Every surgical procedure involves a certain amount of risk and it is important that you understand  
these risks and the possible complications associated with them. In addition, every procedure has  
limitations. An individual's choice to undergo a surgical procedure is based on the comparison of the  
risk to potential benefit. Although the majority of patients do not experience these complications, you  
should discuss each of them with your plastic surgeon to make sure you completely understand all  
possible consequences of a abdominoplasty.

**Bleeding:** It is possible, though unusual, to experience a bleeding episode during or after surgery.  
Should post-operative bleeding occur, it may require an emergency treatment to drain the  
accumulated blood or blood transfusion. Intra-operative blood transfusions may be required. Do not  
medications may increase  
the risk of  
bleeding. If  
bleeding occurs, you  
may need  
blood transfusions  
and

**NexTech**

# Letterwriting

- Customize documents and letters with your logo and other graphics.
- Design document templates in Word to merge a wide range of patient or contact database fields.
- Insert before and after images in letters to patients and referring physicians.
- Create custom superbills, consent forms, procedure forms, insurance pre-authorization, mailing labels and marketing letters.
- Alert patients and prospects about new services by sending merged documents using mass e-mail.
- Through a special licensing agreement NexTech integrates **ASAPS®/ASPS® Cycle of Care** into Practice 2010

## Benefits

- ✓ Present a professional image for your practice with personalized forms, letters, consents, information packets, and more
- ✓ Save your office staff time by merging personalized letters and emails for numerous patients
- ✓ Increase revenue by target marketing patients with special offers and reminders
- ✓ Optimize the time your staff spends with each patient

# NexTech

# Inventory

- Keep up-to-date inventory counts of products on hand with integration between the inventory and billing modules
- Create and track receipts for outstanding orders
- Monitor supplier pricing and inventory costs using purchase order histories
- Track product expiration dates and implant serial numbers
- Pop-up reminders to replenish low stock
- Distinguish between items normally charged to patients, and those used as part of procedure overhead
- Scan and create barcodes to easily receive and bill inventory
- Simultaneously track units of usage and order products such as Restylane® and Botox®
- Easily reconcile invoices and credits
- Create allocations to reserve pre-op quantity, style, and sizes
- Generate purchase orders and fax to implant

# Surgery Center Management

- Capture information on procedures, diagnoses, personnel, supply usage, case durations, drugs and other case activity that integrates with billing. This can be used to track compliance for accreditation standards
- Ability to generate inventory orders or Pull supplies for a single case, or for an entire surgery day, using Case Forecasts.
- Detailed reports of material cost, current inventory stock levels, and forecasts of supplies required for all scheduled cases, and cost profit analysis per procedure\case.

Qty	Amount	Cost	Billable	Pay To Pract...

# Spa Management

- Track gift certificates and gift cards and their balances.
- Prompts employees for suggested sales during patient checkout.
- Track coupons and their expiration dates.
- NexSpa's reward system tracks points earned by patients, which also allows you to incentivize patients.
- Multiple cash drawers can be integrated to create reports and reconcile transactions for each employee.
- Commissions and tips are tracked through the *Practice 2010* billing module and can be created as a percentage of products or services sold by employees.
- Add additional payment methods through credit card processing

# Marketing

- Analyze the percentage of patients returning for recurring procedures and retention rates.
- Improve retention by identifying and merging patients in a mass mailing group to remind them to return for another procedure.
- Make strategic decisions on advertising dollars based on prospect-to-patient conversion rates and revenue to expense graphs for each referral source.
- Track returns on advertising, referral sources and cost.
- Identify common procedures between you and referring physicians in order to maximize the number of patients referred to you.
- Track your marketing productivity as a pop-up every day when you log into *Practice 2010*.
- View the number of prospects/patients, conversion rates and revenue/cost brought in by each referral source, procedure, patient coordinator, and date

## Benefits

- ✓ Make advertising decisions based on your return on investment
- ✓ Maximize conversion ratios of prospects to patients
- ✓ Increase patient retention and revenue by mass emailing patients who have not returned for any recurring procedures
